SUBJECT INDEX

Acid drainage from mine waste 1
Acidification, of soil 173, 1093
Acidification, of surface waters 1093
Acid mine drainage 1015, 1063
    Fe^{2+} oxidation rates 531
    treatment of 581
Actinides
    in colloids from nuclear waste glass 635
    partitioning into calcite 433
Ag
    in alluvium 1015
    in lake water 787
    in river water 1015
    in tailings 1015
Al
    behaviour during weathering of till 761
    extractable, in podsols 707
    in acid drainage from mine waste 1
    in acid mine drainage 581
    in aerosols 423
    in incinerator ash 159
    in lake water 787
    in limestone crusts from treatment of acid mine drainage 581
    in marine sediments 689
    in pit lake water 669, 963
    in suspended sediment from freshwater 301
    phases, in podsols, S. Sweden 707
Alabama, U.S.A. 147
Albigeois, Massif Central, France 447
Almeria, Spain 735
Altiplano, the, Chile 411
Alluvium, contamination from metal mining 1015
Am
    adsorption on dolomite 569
    partitioning into calcite 433
Analysis, of suspended sediment from freshwater 301
Ankara, Turkey 1001
Antalya, Turkey 1001
Appalachian Piedmont mining district, U.S.A. 147
Ar, in groundwater 91
^{40}Ar in groundwater 91, 1001
As
    as Au pathfinder 133

geochemistry at contaminated site 1031
in alluvium 1015
in evaporites 53
in groundwater 53, 67
in lake sediment 53
in lake water 787
in pit lake water 669, 963
in river water 1015
in rocks of mineralised areas 669
in secondary phases at contaminated site 1031
in soil 187
in surface runoff 1031
in tailings 485, 1015
in tailings water 485
release during oxidation of mackinawite 277
Äspö Hard Rock Laboratory, SE Sweden 817, 819, 835, 835, 861, 873, 893, 907, 917, 927, 939, 953
Atik Cu mine, N. Sweden 1
Au, mines,
Gubong, Korea 621
Macraes, S. Island, New Zealand 485
Nevada 669, 963
U.S.A. 147
Australia
Mindurah, W. Australia 41
Perth, W. Australia 41

B
in calcrete 775
in groundwater 333, 735
in irrigation water, damage to crops 735
in lake water 787
use of, to identify sources of salinity in groundwater 735
^{11}B, in groundwater 91
Ba
behaviour during weathering of till 761
in calcrete 775
in groundwater 67, 333
in lake water 787
in pit lake water 963
in tailings, pore water 747
in thermal water 223
Baltic Sea 819, 835, 873, 917, 939
Be, in lake water 787
Bell Beaker people, mobility of 263, 271

Bemidji, Minnesota, U.S.A. 655
Bergen, Norway 27
Berkshire Basin, England, U.K. 333
Bi, in lake water 787
Black Forest, Germany 237
Bohaiwan Basin, China 547
Book Review
    Arsenic exposure and health effects 409
    Environmental geochemical atlas of the Central Barents Region 544
    Geomicrobiology: Interactions between microbes and minerals 543
Br
    in groundwater 67, 91, 333, 917
    in lake water 787
    in thermal water 223
Brazil, Lagoa Real 197

C
    in estuarine sediments 41
    in freshwater sediments 41
    organic in hydrothermally altered sediments 499
^{13}C
    in calcite 953
    in calcrete 775
    in CH_4 119, 607
    in groundwater 91, 333, 927, 1001
^{14}C
    in CH_4 119
    in groundwater 119, 333, 893, 927, 1001
Ca
    adsorption on dolomite 569
    behaviour during weathering of till 761
    in acid drainage from mine waste 1
    in acid mine drainage 581
    in aerosols 423
    in evaporites 53
    in groundwater 53, 67, 91, 283, 735, 835, 873, 893, 927, 1001
    in incinerator ash 159
    in lake sediments 53
    in lake water 787
    in limestone crusts from treatment of acid mine drainage 581
    in mineral water 237
    in pit lake water669, 963
    in suspended sediment from freshwater 301
    in tailings water 485
    in tailings, pore water 747

in thermal water 223, 237
$CaCO_3$, precipitation from brine 17
Cairngorm Mountains, N.E. Scotland 387
Calcite, fracture fillings as paleohydrologic indicators 953
Calcrete, as a paleoclimate indicator 775
California, U.S.A. 53, 387
Canada
North West Territories 607
Ontario 719
Yukon 775
Carlin-type mineralisation 669
Carlsbad, New Mexico, U.S.A. 569
Carnmenellis, Cornwall, England, U.K. 67
Cd
in aerosols 423
in groundwater 67
in incinerator ash 159
in incinerator ash leachate 159
in lake water 787
in marine sediments 689
in mine waste 621
in pit lake water669, 963
in rain water 423
in soil 187, 621
in stream sediment 621
in tailings, pore water 747
release during oxidation of mackinawite 277
Ce
in groundwater 27
in river sediment 1063
in river water 1063
CFCs, in groundwater 1001
CH_4, at hazardous waste site 119
C_2H_6, at hazardous waste site 119
Chardon mine, Massif Amoricain, France 67
CH_3Hg, in surface water 395
Chile, the Altiplano 411
China
Bohaiwan Basin 547
North Jingsu Basin 547
Songliao Basin 547
Chlorophenols, solubility in water 319
Pentachlorophenol 319
2,4,6,-trichlorophenol 319

Cl
in evaporites 53
in groundwater 53, 67, 91, 283, 333, 735, 835, 893, 917, 927
in incinerator ash 159
in lake sediments 53
in lake water 787
in mineral water 237
in pit lake water669
in pore water, salt marsh 559
in river water 1015, 1063
in tailings water 485
in thermal water 223, 237
^{36}Cl, in groundwater 91, 917
$^{37}Cl/^{36}Cl$, in groundwater 91
Cm, partitioning into calcite 433
Co
behaviour during weathering of till 761
in acid mine drainage 581
in groundwater 67
in lake water 787
in marine sediments 689
in pit lake water 669
in tailings, pore water 747
CO_2
in groundwater 1001
in mineral water 237
in thermal water 223, 237
Coal mine drainage
Fe^{2+} oxidation in 511
treatment 511
Colloidal transport, of contaminants 635
Comstock mining district, Nevada, U.S.A.147
Cook County, Illinois, U.S.A. 119
Cornwall, England, U.K. 67
Cr
behaviour during weathering of till 761
in aerosols 423
in calcrete 775
in groundwater 283, 989
in lake water 787
in marine sediments 689
in rain water 423
in river sediment 459
Critical comment 263
Critical load 173, 1093

CrO_4^{2-}, in groundwater, remediation of 989
Cs
in groundwater 67
partitioning into calcite 433
^{137}Cs, for dating salt marsh sediments 559
Cu
behaviour during weathering of till 761
in acid drainage from mine waste 1
in acid mine drainage 581
in alluvium 1015
in calcrete 775
in groundwater 67, 283
in incinerator ash 159
in incinerator ash leachate 159
in lake water 787
in limestone crusts from treatment of acid mine drainage 581
in marine sediments 689
in pit lake water 669, 963
in river sediment 459
in river water 1015
in tailings 1015
release during oxidation of mackinawite 277

Delaware, U.S.A. 559
Diagenesis, of salt marsh sediments 559
Dy
in groundwater 27
